

SAE Institute - European on Screen Scholarship Challenge

Indonesia's creative industries have been experiencing incredible growth and success in recent times, most noticeably the stunning development of the **film industry**. Indonesian **films** are gaining increasing global recognition, having received awards at many highly respected international events including Sundance and Toronto film festivals. With these achievements in mind, SAE Institute believes that now is the time to nourish the talents that will take the local film industry onto the global platform, bringing Indonesian creativity to the world.

SAE Institute strongly believes that Asia, and especially Indonesia, is a highly promising territory for creativity, brimming with vibrant culture and extraordinarily talented people. Education is the key to developing that talent and SAE Institute is the place for passionate creative people to fully develop their talents and pursue a successful career path in the film industry.

Established in 1976, SAE Institute is widely recognized as the world's leading creative media education group. With 55 campuses spanning over 24 countries, SAE Institute offers our students an extensive global network of fully equipped educational facilities staffed by highly trained, award winning film makers who have produced Academy & Grammy award winning graduates. Our Jakarta campus, recently accredited by Middlesex University UK, is equipped with state of the art film studios, editing suites, green screen facilities, open computer stations, auditorium and Apple iMac computer labs. We deliver the most advanced International Bachelor and Diploma Programs in Film Production, plus Audio Engineering, Animation and Music Business in Indonesia.

It is our mission to be the center of creative media technology in Indonesia, and as such we are very pleased to announce the **EoS Scholarship Challenge** program. This scholarship program has been established to encourage talented and committed young people to further their education and prepare themselves for a successful career in the Film industry. If you think you have what it takes to join a global network of industry professionals, prove it by competing in our **EoS Scholarship Challenge**.
