

CARE International Indonesia (CII), as an international NGO, has carried out large scale operations in Indonesia, encompassing emergency operations, transitional activities centered on agriculture and nutrition and a range of development initiatives in such areas as water and sanitation, health and micro-credit.

CARE Indonesia in **Bone, Wajo, Luwu & Luwu Utara-South Sulawesi** is currently recruiting the following position for its project:

JOB TITLE : **VILLAGE FACILITATOR (VF) -4 post**
DEPARTMENT/PROJECT : **PROJECT/ENRTP**
REPORTS TO : **DISTRICT FACILITATOR**

OBJECTIVE OF THE PROJECT:

The overall objective of this project is: **Coastal populations in Indonesia are increasingly resilient to the negative impacts of climate change.** Resilience can be defined as: *The ability of a community to resist, absorb, and recover from the effects of hazards in a timely and efficient manner, preserving or restoring its essential basic structures, functions and identity.* Resilience is a familiar concept in the context of disaster risk reduction (DRR), and is increasingly being discussed in the realm of adaptation. A resilient community is well-placed to manage hazards to minimize their effects and/or to recover quickly from any negative impacts, resulting in a similar or improved state as compared to before the hazard occurred. There are strong linkages between resilience and adaptive capacity; consequently, resilience also varies greatly for different communities and even within different community groups.

MAJOR FUNCTIONS:

This position will be supervised by District Facilitator. VF will work together with other CARE project Staff and other partner to design, planning and implementing activities in community with related institutions.

MAJOR DUTIES AND RESPONSIBILITIES:

- Work with in co-operation with Local Government, opinion leaders, religious groups, and community based organizations (CBOs), etc across the target areas, providing information to the community about Building coastal resilience to reduce climate change impact in Teluk Bone, South Sulawesi (BCR CC) and its components.
- Organize meetings or events together with the village leaders and or water committee for the purpose of project implementation
- Facilitate and assist community organization to manage WSS and health and hygiene education, reflecting gender equity and poverty targeting principles.
- Build community capacity and assist community in developing the Community Action Plan (CAP), related to the livelihood and climate change adaptation.
- Address complaints and questions about the project and help ensure transparency in all project implementation and decision making.
- Monitor and evaluate project activities in community level, in coordination with Monev Officers.
- Provide timely and accurate progress reports for the supervisor and other partners as appropriate
- Monthly Update of Project Activities Reports (Including database, indicator tracking tables, etc)
- Other tasks may reasonably requested by supervisor

This job description covers the main tasks and conveys the spirit of the sort of tasks that are anticipated proactively from staff. Other tasks may be assigned as necessary according to organizational needs
